

Site Based Architects/ Architectural Technologists

Located on site at the New Children's Hospital, St. James's Hospital, Dublin

We are seeking several high calibre qualified Architects/ Architectural Technologists to join a site based architect team that are overseeing the construction of the New Children's Hospital.

We are looking for highly motivated people with excellent communication, technical design and detail skills.

About you

The successful candidates will require to:

- Ideally have a minimum of 7 years post graduate experience;
- Have relevant cross sector experience in technical design development, detailing and job running;
- Have excellent CAD, MS Office/ Excel skills;
- Have excellent verbal and written communication skills;
- Revit skills are desirable but not essential (Revit training will also be given to successful candidates)

BDP offers

In return, BDP offers an excellent opportunity for your personal development as well as an attractive remuneration package that includes a competitive salary.

About us

BDP is a major international interdisciplinary practice of architects, designers, engineers and urbanists working together to create outstanding 'places for people'.

We work closely with users, clients and the community to create special places for living, working, shopping, culture and learning across Europe, Africa, Asia and Australia.

To apply for this role please email a CV and cover letter, along with examples of your work and two references (portfolio work which should be printable A4 portrait PDF – max size 10MB) marked for the attention of Ian Rothwell to michelle.kenna@bdp.com

As we have a number of positions available at the moment we would appreciate if you could please reference the position you are applying for in the subject heading.

BDP is an equal opportunities employer.

No agencies please.
